Objective

To contribute value as a full-time employee to a great company in Austin using my skills in software development, specifically as a backend, API-driven engineer, with room and capability for growth anywhere along the software stack.

Experience

Software Engineer at Zilkr Cloud Technologies - Oct. 2016 - Jan. 2018

- backend-focused engineer; helped build a robust API w/ multiple environments
 - live production environment for customer use
 - live sandbox environment for trying out the API
- lead feature development, from the planning and design phase, to implementation and testing phase
- customer-facing support role, designing, planning, and testing features with architects, product and project managers, lead engineers, and QA testers at our largest customer, a global tier-1 phone provider
- delivered in-use production features to Zilkr's largest customer, accounting for approximately 90% of revenue
- collaborated with remote teams, both in Mexico and India

Web Development Teacher at St. Gabriel's Catholic School - Sept. 2016 - Nov. 2016

- worked with children in grades ranging from kindergarten through eight
- taught basic skills in web development, including HTML, CSS, and basic Javascript

Teacher - High School, Elementary School; Louisiana, Texas, Spain - 2009 - 2016

- more information available upon request

Bachelor of Arts - Foreign Languages & Literatures (Classical Latin)

- Louisiana State University (Baton Rouge, LA)
- Aug. 2001 - Dec. 2005

Personal

As a newly minted father (my daughter Eleanor was born in July 2017), I am dedicated to my family and providing the best possible for them. I enjoy traveling with my wife Theresa, with whom I was lucky enough to live in Madrid, Spain for two years, and can't wait to share the world with Eleanor. I enjoy listening to music and attending live shows, woodworking in my free time, and playing golf. Two fun facts about me: I ran with the bulls in Pamplona, Spain during the San Fermines festival in 2012 and have performed five wedding ceremonies.
